

Dave/Model/APPS/FREERTOS
/v4_1_2/Templates/portable.h

```
graph TD; A["Dave/Model/APPS/FREERTOS/v4_1_2/Templates/portable.h"] --> B["deprecated_definitions.h"]; A --> C["mpu_wrappers.h"];
```

The diagram illustrates a mapping from a source file path to two target files. A grey rectangular box at the top contains the source path: "Dave/Model/APPS/FREERTOS/v4_1_2/Templates/portable.h". Two blue arrows originate from the bottom of this box. The left arrow points to a white rectangular box containing the text "deprecated_definitions.h". The right arrow points to another white rectangular box containing the text "mpu_wrappers.h".

deprecated_definitions.h

mpu_wrappers.h
